VOA Broadcasting in Turkish

VOA Turkish is a multimedia Internet and TV service. Its TV programs air by leading news networks in Turkey. The VOA Turkish website and mobile news service, along with social media, attract a high number of users. Interviews and broadcasts by VOA Turkish are frequently re-distributed in the Turkish media. The service receives substantial audience feedback from Turkey, Europe, Cyprus, and the Middle East. Turkey is a multi-party democracy; however, Freedom House and other international organizations rate Turkish media only “partly free.” The Syrian war and the 3 million Syrian refugees in Turkey, along with worsening relations with the U.S. and Russia, put Turkey in the middle of international controversies.
