

VOA Broadcasting in Ukrainian

VOA Ukrainian employs a cross-platform, digital-first strategy. Its coverage focuses on U.S.-Ukraine relations, U.S. foreign policy toward Ukraine and the region, as well as American life and achievements in democratic governance, business, health, science and technology. VOA Ukrainian provides fact-based reporting, essential to counter the spread of misinformation and disinformation in the target area and routinely polls as one of the most trusted sources of news among Ukrainians. Since Russia's full-scale invasion of Ukraine on February 24, 2022, VOA Ukrainian has significantly expanded its cross-platform programming, serving as a reliable source for the latest information on the war, insights from global experts and daily responses from U.S. and world leaders.
