

VOA Broadcasting in Georgian

VOA's Georgian service employs an interactive mix of television and digital programming to inform, engage and connect with the audience in the target area, which has been described as an arena of conflicting interests between the United States and Russia. VOA broadcasts provide reliable, objective, and fact-based news and information to Georgian-speaking audiences, including in Georgian territories occupied by Russia, and counter increasing Russian influence and media propaganda, which has become even more critical since Russia's invasion of Ukraine. The audience views VOA Georgian as a "window on the United States," providing valuable insights into American life, thought and institutions, and analysis on Georgia's democratic evolution and its prospects for Euro-Atlantic integration.
