

"Just Drive" by Emma G

Saw you enter the room with that look in your eye
You made it so damn clear that I was on your mind
I wracked my brain in vain just to find an excuse
But you were watching me while I was watching you
And oh, I know I made it obvious
Subtlety and I are not friends
And deep inside I'm more than curious
Ahhh

We don't know where we're going
But think where we could be
I'll just keep on hoping
That it's only you and me
The road is paved with magick
And it's made for you and I
So baby just drive

Now we cut to a scene a couple months down the line
I tried to push you away, I guess I'm scared of flying
I told myself that I would make you King for a Day,
But you made me Queen, and I lost my way
And oh, I know I'm breaking promises
But rules and I are not friends
And deep inside you got me positive
Ahhh

We don't know where we're going
But think where we could be
I'll just keep on hoping
That it's only you and me
The road is paved with magick
And it's made for you and I
So baby just drive
